ALDI US

A leader in the grocery retailing industry since 1976, ALDI operates more than 1,900 U.S. stores in 36 states. More than 40 million customers each month benefit from the simple, streamlined approach ALDI brings to retailing. ALDI sells frequently purchased grocery and household items, primarily under its exclusive brands, which meet or exceed national name brands on taste and quality.

Production Methods Used

- Midwater trawl
- Bottom trawl
- Dredge
- Purse seine
- FAD-free (unassociated) purse seine
- Seine nets
- Gillnets and entangling nets
- Hook and line
- Longlines
- Handlines and pole-lines
- Pots and traps

Summary

ALDI promises our customers quality products at the best prices. For us, quality includes consumer safety, health and well-being, and the sustainability of our products and their production. We are committed to responsibly sourcing our exclusive-brand seafood products. We strive to source all of our seafood products from responsibly managed fisheries and farms that have minimal impacts on the wider marine environment. We are also committed to human rights and fair labor practices throughout the supply chain. ALDI has implemented a sustainable seafood buying policy that is annually reviewed by our expert partners and has been fully integrated into our internal operations. This profile covers all main wild-caught seafood sourced in 2019.

### Associated Fisheries

<table>
<thead>
<tr>
<th>Species and Location</th>

<th>Notes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Acadian redfish, Sebastes fasciatus</td>
<td>Bottom trawl</td>
<td>Certified</td>
<td>Well managed</td>
<td>▼</td>
</tr>
</tbody>
</table>

#### Environmental Notes
- This fishery is unlikely to have unacceptable impacts on PET species. PET species that may interact with the fishery include marine mammals, sea turtles and Atlantic sturgeon, but recorded interactions are low.
- This fishery does not pose a risk of serious harm to bycatch species. Major bycatch species include dogfish and skate, of which, thorny skate is overfished. There is a partial strategy in place to ensure the fishery does not hinder the recovery of thorny skate.
- Bottom trawls will directly impact on the sea bed. However, management measures are in place.

#### General Notes
